

EASY CAMP THE PERFECT BASE FOR SUMMER FUN

Balmy days spent enjoying picnics and play in the sun-kissed countryside or on a sandy beach is one of life's great and simple pleasures. And the Easy Camp SUMMER range provides the perfect shelters from which to kick back and relax away from prying eyes when the sun's rays get too much – ideal for days out, in the garden or at a festival.

The tried and tested quick-pitch shelters and eye-catching windbreaks in the very latest colours are joined by the Oceanic and Cliff Tarp to add even more choice and versatility.

Offering protection from the sun, wind – and nosey neighbours – the Oceanic (pictured below right)

simply pops open straight from the circular carrybag. With guylines to help hold its shape, it has an open-front design with integral groundsheet in durable polyethylene to ensure protection on three sides from sun, wind and light rain without blocking the view – especially useful when keeping an eye on your children at play. And when the sun gets too hot for them, the UPF 50+ rating gives excellent sun protection.

Every outdoor enthusiast should own a tarp. And the Cliff Tarp (pictured below left) fits the bill. It is so versatile as an extra shelter for a tent, car or campervan and can be thrown up quickly to protect from rain and supply a shady area with a UPF 50+ rating.

The Cliff Tarp measures a handy 3m x 3m in a light, durable PU-coated polyester fabric and is supplied with two 1.5m high steel upright poles. Eight webbing guylines are well reinforced for extra strength and durability.
