

ENJOY A NAP FOR CAREFREE CONVENIENCE – THE VERSATILE OUTWELL DRIVE-AWAY AWNING FOR TOURING

Motorhome owners trying to reconnect their vehicle to a drive-away awning after a day out will appreciate it's not always an easy task to align the rail and beading. Well, Outwell has solved the problem with the new Milestone Nap.

The award-winning Scandinavian brand's latest drive-away as more 'drive-to' for it features identical doors front and back, each with a deep side canopy that has roll-out sides for fast and neat closure against a vehicle. Just drive up

close to the eye-brow pole for instant vehicle placement.

In fact, the Milestone Nap drive-away awning can be opened on three sides for flexible outdoor living and maximum ventilation for it also has a roll-up side door that turns into a sun shade using the supplied poles. Opposite this door sits another key feature with special appeal to those with smaller units, like campervans. The Milestone Nap provides a five-berth bedroom extension with Night Sky Ceiling for a great sleep experience – or it can be used as extra hidden storage when needed.

The Milestone Nap (pictured right) is just one of five drive-away awnings in the Outwell Cruising Collection that provide standard and tall fit options. Cruising drive-aways pitch quickly using Duratec fibreglass poles and the Outwell Easy Pegging System. All enjoy the protection of Outtex 3000 polyester with a 3,000mm hydrostatic head, with performance enhanced by the Force 8 storm-beating Outwell Wind Stabilizer System. Large tinted windows protect from UV light and the sun's glare while maintaining great views out and privacy, tailored to suit needs by toggle-up curtains.

Milestone, Milestone Pro (pictured left) and Milestone Pro Tall models connect using the Link Access Zone System to ensure optimum performance, with standard models having an attachment height of 180cm-205cm and the Tall option increasing this to 240cm-290cm. However, the Milestone Pace shares the Nap's connectionless versatility, making it perfect for multiple applications ranging from camping to outdoor activities to events.

All Cruising models except the Milestone Nap, have the option of an inner tent for storage or bedroom use. Other options throughout include flat woven carpets and footprints.

The ever-popular Outwell Touring Collection of sturdy steel poled drive-away awnings continue to provide superlative quality and chic looks with outstanding Outwell innovative features that stand out from the crowd. These upmarket awnings ensure stability and safety using of Outtex 4000 Select polyester outer and the unique Outwell Wind Stabilizer System proven using the Outwell test rigs to

resist Force 9 winds. The addition of the Easy Pegging System cements performance and easy pitching credentials.

The Touring Collection comprises the Scenic Road 200; Scenic Road 250; Scenic Road 250 Tall; and Scenic Road 300 (pictured right). All these tunnel-style awnings are 340cm wide and the name number refers to its depth in centimetres.

Connection is made using the unique Outwell Link Access Zone System that closes the connecting gap between vehicle and an awning while allowing external access via side doors. The front wall can be opened completely by a four-slider zip for extra flexibility by opening the doors/front panel fully to create a veranda-style aspect with insect mesh screen. The fully detachable rear opening with four zips sliders offers flexibility and easy access to vehicles.

Large tinted windows with zip-close curtains are supplied throughout to tailor privacy and provide UV-protection while maintaining great views out. And the Outwell Sealed Ground System in the living area provides maximum protection from draughts and bugs.

Options include an inner for storage or two-person bedroom (except Scenic Road 200). Footprints and fleece carpets provide extra underfoot comfort and protection.

The Touring Collection also includes three sizes of Touring Canopy (L pictured left) that quickly attach to the vehicle and held up by a front hoop to provide a stable shelter that's perfect for short stops, event use or an overnight stay.

RRPs: Scenic Road 200 £524.99; Scenic Road 250 £564.99; Scenic Road 250 Tall £599.99; Scenic Road 300 £619.99; Milestone £344.99; Milestone Pro £435.99; Milestone Pro Tall £459.99; Milestone Pace £374.99; Milestone Nap £524.99; Touring Canopy M £199.99; Touring Canopy L £235.99; Touring Canopy XL £261.99

Attachment height: Standard 180cm-205cm; Tall 240cm-290cm

Features include:

Outwell Wind Stabilizer System – this directly attaches outer, pole and guyline to create superb strength and stability in high winds. Touring and Cruising awnings have been tested to withstand a minimum of a Force 9 and Force 8 winds on the Beaufort Scale respectively.

Outwell Easy Pegging System – this is the proven way to ensure the right pegs are used for the right job. Simple, but highly effective, three types of pegs are used to anchor specific areas of the awning.

Tinted Windows – provide protection from the sun and add to privacy while maintaining views out.

Link Access Zone System – Extra weather protection is provided by the D-shaped side doors of the Easy Access System that open onto the space created between the vehicle and awning, providing an access area to keep water and mud out of the living areas. The Outwell Link Access Zone System provides a valance to close the gap (80cm-90cm) between the vehicle and the ground and works with the awning's groundsheet to keep the access area dry and draught-free. Magnetic connection now provides an even tighter seal.
